

**BULLETIN NO. 15/16-004**

**DATE: 21 DEC 15**

**TO: ALL ISR Enduro Affiliates**

**SUBJECT:** Pro Mod Enduro rules shall be temporarily amended in the area of Ski Suspension and Steering and Track Suspension.

**As follows :**

**Ski Suspension and Steering :**

Number 8.

Suspension components including arms, spindles, radius rods, rod end bearings (Heim ends) shock absorbers, springs, and sway bars may be altered or replaced. This is to include use of any shock, and titanium springs. Shocks using air as the suspension medium allowed.

*This rule will be reviewed and may be retracted at the 2016 Spring ISR rules meeting. Allowance for use this season will not set a precedent for future use, until reviewed.*

**Track Suspension:**

Number 1. Track Suspension may be altered, relocated, or replaced. Structural integrity must be maintained. This is to include use of any shock, and titanium springs. Shocks using air as the suspension medium are allowed. *This rule will be reviewed and may be retracted at the 2016 Spring ISR rules meeting. Allowance for use this season will not set a precedent for future use, until reviewed.*
