

BULLETIN NO. 20/21-014 DATE: 15 Dec 21

TO: ALL ISR Oval and Enduro Affiliates

SUBJECT Reference track availability Oval Sprint and Enduro disciplines.

After consultation with the manufacturer and examination of various track configurations ISR is making the following recommendations for alternate tracks to be used for this coming season oval competition.

The Camso **9110H** in the 14"X128 " by 1" lug are legal replacements for 9194 R tracks which will not be available until early March.

The track clips will need to be altered to fit your personal requirements; however, this is and remains a legal modification to the track itself.

9239R 14"X121x 121 tracks are scheduled to ship by the first week of January 2022.

9043H144 in 15X121 with 1 inch lug are available to order currently.

Both Camso and ISR are endeavoring to make available safe, high-quality tracks for your competition needs for the 2022 season. Supply chain issues are great, and together we will work to keep your teams on the safest, best quality product possible.
