

**BULLETIN NO. 24/25-002 DATE: 19 Aug 24**

**TO:** All ISR Drag Race Affiliates

**SUBJECT:** Pro 55 drivers are required to conform to Pro Mod Rider Safety Requirements

Pro 55 class participants:

This is to inform you that two items for driver protection and safety have been incorrectly published.

1. Pro 55 class participants, Leather driver one- or two-piece leather suits are NOT required for competition. Regular driver protection apparel is required. Approved helmets, upper body protection, eye protection, boots, and all standard safety garments are required.
2. Parachutes and parachute deployment devices are NOT required for Pro 55 race vehicles.  
Pro 55 class sleds have not exceeded the 150 MPH parameter for required use.

If the 150 MPH threshold is exceeded in upcoming events, ISR will post notice of the required changes, and the timeframe for compliance.

Pro 55 drivers are required to conform to Pro Mod Rider Safety Requirements as specified in the ISR rule book.

ISR apologizes for the confusion in the above stated matters.
